WNTC Has Elections

Elwyn R. Parker has been elected president of WNTC campus radio for the forthcoming school year. El succeeds Joseph Scholz at the helm of the station and plans "bigger and better things in the year ahead".

Others elected to posts on the WNTC board are Donald Gabin, station manager; Joe Scholz, business manager; Wouter Weening, program director; John Dalphin, operations director; William Cleverly, technical director; and Ruth Bagshaw, secretary. Installation of these officers is planned for April 11.

According to John Dalphin, there are still positions open for news editors and reporters in connection with the new Collegiate Radio L&M newscasts. Those interested should contact John.

Immediate plans for WNTC include expanding transmission in order to cover Sissen and Van-Housen Halls in the near future.
